## Workshop Notes

### February 17: Goldfish in Colored Pencil w/ Pam Caley

The surface, colored Pencils, and other needed supplies are listed on the sign-up sheet on page 6 of this newsletter. Pam is using Prismacolor Premiere pencils, but that doesn't mean you can't use another brand. Preferably, use an artist grade brand (as opposed to student grade.) Also, please feel free to substitute a similar color if you already own it.

#### Pre-Class Prep:

1. Trace the design pattern onto tracing paper. Or if you can cut your tracing paper (8 ½" x 11") to fit your printer tray, you can print it directly onto the tracing paper.
2. Clip or tape your paper to the support board, smooth side up.
3. Position tracing paper on top of the paper with removable tape in a couple of places to secure in place.
4. Slip the white transfer paper under the tracing.
5. Use the fine tip stylus or fine tip pen, and **light** pressure to transfer the design to the paper. Check frequently to make sure you are not pressing too heavily. You need to be able to see the lines, but if you press too heavily the coloured pencil will never cover them.
